CWO2 Sean T Hays  
3rd Marine Division Combat Camera Officer  
Okinawa, Japan

Presentation of Diplomas and Awards

**Video Production Documentation Course**

Students become visual storytellers by operating video cameras and editing systems, as well as audio and lighting equipment. They learn the principles of framing and composition, camera placement, editing, script-writing and visualization. Students receive a basic working knowledge of applications for television, electronic news gathering, electronic field production, and combat documentation. This course prepares them for their future mission, supporting operational commanders in areas of operations and public affairs.

**Graduating Students  
16 April 2007 -08 August 2007**
